

# XPACE

A co-lab food space for avid dreamers

CO-CREATE

CO-WORK

CO-LAB

CO-XTORE

What if there could be a haven for like minded passionate food people to explore ideas, cook, prep, work, store, discuss, collaborate, innovate, and experiment?

This got us thinking about creating such a space - a XPACE for avid foodies who dare to dream.

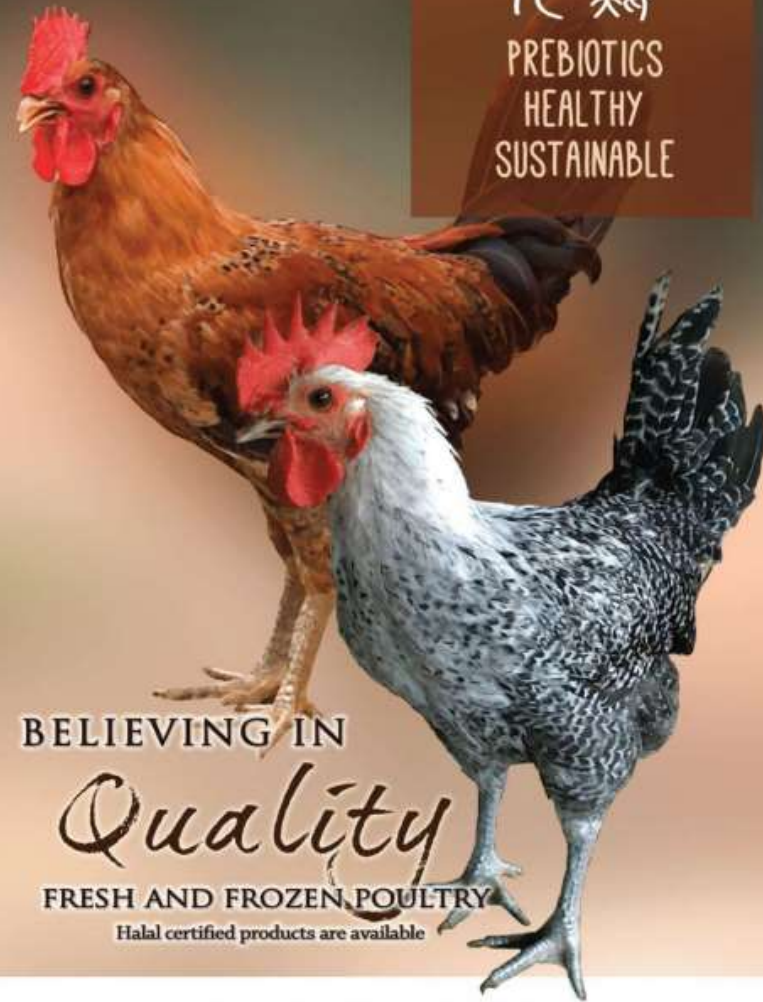

**Need some XPACE? Look no further!**

## SERVING THOSE WHO SERVE GREAT FOOD

Angliss Singapore has evolved over the years to become one of the trusted leading gourmet purveyors in Singapore. Thanks to a comprehensive suite of top shelf quality products ranging from chilled meats, seafood and gourmet produce, we are proud and honoured to be the go-to purveyor many culinary professionals trust when it comes to bringing their creations to fruition.

The Future of Food starts now and we believe in striking a difference in Singapore's F&B sector with greater awareness for sustainably sourced products and services. Embarking on multiple urban farming projects (i.e. locally grown micro cress and edible flowers) and expanding our list of sustainably sourced produce (e.g. Sustainably sourced seafood certified by the Aqua Stewardship Council (ASC) and Marine Stewardship Council (MSC)) and brands, we hope to inspire collective efforts towards the "Greening" of the F&B industry.

Primech A&P Pte Ltd, incorporated in 2020, is committed to building a better environment for everyone. From humble beginnings over 30 years ago, we have grown to represent the gold standard for comprehensive integrated facility services. Our core business includes cleaning and maintenance of integrated public facilities, airport, hotels, condominiums, institutions, conservancies, and industrial facilities, as well as the provision of stewarding and disinfection services. We are also a provider of customer service, with highly trained customer service officers satisfying our clients' outsourcing needs.

At Primech A&P, we strongly believe in leveraging on the benefits of technology, process automation, AI and IoT to improve our workflow, as well as our customers' experiences. By making use of our expertise in research and innovation to acquire and develop the latest clean-tech in the market, it gives us an edge over our competitors, enabling us to be more customer-centric. We are therefore able to better tailor our services to meet the new and changing needs of our clients.
